

The Brantford Flight Centre is proud to announce that we will soon have an IFR ground school available for the first time ever! The course is currently under construction and will ideally be available mid-2023.

We are currently building a wait list for those who are interested.

Please let either Katherine Summers or Luke Wilson know

ksummers@flybfc.com or lwilson@flybfc.com if you're interested and they'll add you to the list.

Please also indicate your preferred times and days of the week as well as your preferred frequency per week in your email. In the past our courses typically run once a week from 7-10pm. We will use this poll to build the course schedule and decide based on the majority.
